

Harry R. Hughes Center for Agro-Ecology

The Hughes Center is a 501 (c) (3) organization affiliated with the University of Maryland College of Agriculture and Natural Resources. Founded in 1999, the Center brings together diverse interests from the agricultural, forestry, and environmental communities for the purpose of retaining Maryland's working landscapes and the industries they support while protecting and improving the health of the Chesapeake Bay and its tributaries.

Our mission is to provide leadership to promote environmentally sound and economically viable agriculture and forestry as Maryland's preferred land use through research, outreach and collaboration.
